A cat family for the Lonely Kitten

by MiaQc

Summary

This cat game gave me a heartwarming drabble idea.
The Lonely Kitten has a sad life, according to Amanda, but other cats will take care of her.

- A translation of Une famille de chats pour la Chatonne Solitaire by MiaQc

The Lonely Kitten has a sad life, according to Amanda. She's always alone. She seems to be looking for a family. One day, she finds it. A group of cats hears her meows and cries and comes to her. There's a male orange tabby cat, a male orange-and-white cat, a female calico cat and a female black cat. They take care of her right away. The female calico cat and the female black cat take turns grooming her. The male orange tabby cat and the male orange-and-white cat teach her to play with them. Soon, the Lonely Kitten will be able to hunt with them. She's not alone anymore. Her life is no longer sad.
